Atlanta, GA 30307**

Dear President Carter,

Thank for your continuing efforts to raise awareness in the United States about the injustices occurring in Palestine. You are doing work that the US media fails to do. You are offering solutions for the conflict that the US government should be offering. Your speaking up for the voiceless and powerless is something we hope better to emulate.

We decry the steady efforts to vilify you, but those efforts only result in your message reaching more ears. Take heart and resolve in knowing that many others have earlier been disparaged for speaking on behalf of "the least of our brethren." Peace and tranquility to you.

If you would consider delivering your message about justice and peace in Palestine and Israel in person to the citizens of Seattle, we would be delighted to host you.

Sincerely,

(signed by 12 members)
